

## “Jal Sanchayan” Mobile Application

In pursuance of Digital India Programme of Govt. of India launched by Hon'ble Prime Minister, Central Ground Water Authority has taken an initiative to facilitate common man to implement rain water harvesting through various techniques and accordingly a mobile application “Jal Sanchayan” has been developed.

The mobile app was launched by Sushri Uma Bharati, Hon'ble Minister of Water Resources, RD & GR during the inauguration of “India Water Week 2016” on 4<sup>th</sup> April 2016 at Vigyan Bhawan, New Delhi.

- Jal Sanchayan is a user-friendly android mobile application comprises all components of rainwater harvesting in single platform.
- It allows user to know from location conditions and interactive module enable user to calculate potential rainwater to be harvested in user's location
- In addition, it also provide schematic designs, benefits and operation and maintenance aspects
- It also provide contact information of authorities, agencies, technical institutions and grass root community organizations working in the water sector
- **Download from Google play store as “Jal Sanchayan”**

This will definitely help in creating wide spread awareness about rain water harvesting and water conservation techniques and enable the citizen of the country to use the technique.
