Date: 27.12.2022

Notice regarding hiring of Young Professionals and Consultants in various offices of Central Ground Water Board (CGWB), Department of Water Resources, River Development and Ganga Rejuvenation, Ministry of Jal Shakti.

Central Ground Water Board (CGWB) is implementing the National Aquifer Mapping and Management Programme (NAQUIM). With a view to supplement professional manpower for achieving the targets for NAQUIM programme, CGWB proposes to hire young professionals to support its officers. In this regard, applications are invited from willing and eligible individuals (including retired govt servants, wherever eligible) for hiring on purely temporary basis for the following positions on fixed remuneration upto 30.09.2023. Terms and conditions, Eligibility criteria etc. for engaging the Young Professionals and Consultant shall be as under:

1. **Categories to be Hired: Young Professionals and Consultants**
2. **Target group:** The candidates as per the eligibility criteria specified at point 4.
3. **Objectives:** To achieve the objectives of National Aquifer Mapping Programme being implemented by CGWB and other activities by CGWA in a time bound manner. The activities that the Young Professionals and Consultants would take up involves but not restricted to the following. Please note that the Young Professionals and Consultants may be assigned field work for data collection and scientific studies.

Young Professionals:

- i. Collating existing data from various sources, digitalization and preparation of GIS datasets.
- ii. Entering data in relevant software such as lithological modeling software, GEMS, etc.
- iii. Providing assistance to CGWB officers in integration, analysis and interpretation of data.
- iv. Preparation of various thematic maps, lithological sections and block diagrams.
- v. Processing the applications for ground water extraction.
- vi. Other related tasks including field surveys and collection of data from the field as and when assigned.

Consultants:

- i. Data integration and formulation of aquifer maps and management plans
- ii. Preparation of reports and materials for AIMS web-portal
- iii. Preparation of user-friendly maps and management plans
- iv. Providing guidance to the Young Professionals
- v. Processing the applications of ground water extraction
- vi. Other related tasks including field visits as assigned
